A Few Words From This Year’s Winners...

“What advice would you give a graduate TA or a new faculty member when it comes to good teaching?”

I think the ART of good teaching is firmly anchored on the HEART for teaching. One must first enjoy the process in order to be motivated to improve, to innovate and even to re-invent. To keep that passion alive, we have to recognise that both the learner and the knowledge would continue to evolve with time. Even though there is nothing new under the sun, there is always something different and refreshing we can experiment with and subsequently adopt in our teaching if appropriate. Not moving forward with the times equates to taking a step backwards.
